

Hi Elizabeth,

It was great chatting with you this morning. I'm looking forward to helping you create a closet that is purposeful and intentional and can take you from the office to school or wherever else you need to go!

From our conversation, I've included a summary of services below.

### Signature Style Development - [REDACTED]

[Pay in full here](#) // [Set up payment plan here](#)

[Schedule closet audit session here](#)

- *The Closet Audit* is a 3-hour in-person session that focuses on cleaning out the closet from pieces that are outdated, worn, or just not your style. We'll discuss style, budget, and body type. I'll take body measurements in this session as well and we'll talk about ways to dress for your body type. Anything that we clean out from your closet will be taken to a consignment store if applicable and will donate the rest to charity and you receive the tax receipt!
- *The Wardrobe Action Plan* includes: custom mood board (think Pinterest) to visualize your style; brand and store recommendations based on your lifestyle, style and budget; color palette recommendations based on your skin/hair coloring; dressing for body type recommendations and tips; and an itemized shopping list to prevent impulse shopping and help you fill the specific holes in your wardrobe post Closet Audit
- Virtual shopping - this is where we curate the looks for you! You'll receive 2-3 options for each item on your shopping list. You just choose, order and take care of returns!
- *Wardrobe restyling* - 2 hour in-person session designed to help you shop your closet and create outfits from what you already own (or recently purchased!). We will create between 8-15 outfits (typically!) that work for your specific lifestyle and needs. You will receive a digital look book with all of your outfits for easy reference
- *Seasonal mini closet audit and then another round of Virtual Shopping + Wardrobe Restyling for that next season.*
- Unlimited access to stylist via text + emails during the duration of your service and during office hours.
- Style Memos recapping each session.
- Style Support emails full of style advice and tips + tricks.

You will be equipped to take on the personal shopping once we have completed this session if you want to go that route.

As we talked about, if you would rather put it on auto-pilot and have most of the work done for you, the Signature Style Development service is the better option for that.
